

POLICY FOR VACCINE BRAND CHOICE

January 2011

| Cities / Metropolitan Areas | Territories |
|-----------------------------|--------------------------------|
| Chicago | American Samoa |
| District of Columbia | Guam |
| Houston | Republic of Marshall Islands |
| New York City | Federated States of Micronesia |
| Philadelphia | Northern Mariana Islands |
| San Antonio | Palau |
| | Puerto Rico [†] |
| | Virgin Islands |

[†] Puerto Rico does not provide vaccine to private providers (FQHCs / RHCs are public providers)

-  Public and private providers have brand choice for all vaccines
-  Private providers have brand choice for all vaccines, program chooses brand for public providers
-  All / some providers have brand choice for some vaccines
-  Program chooses brand for all vaccines for public and private providers
-  Data not available

* This category encompasses a wide variety of policies, ranging from the program choosing the brand of all but one vaccine for all providers, to all providers having brand choice for all but one vaccine.
