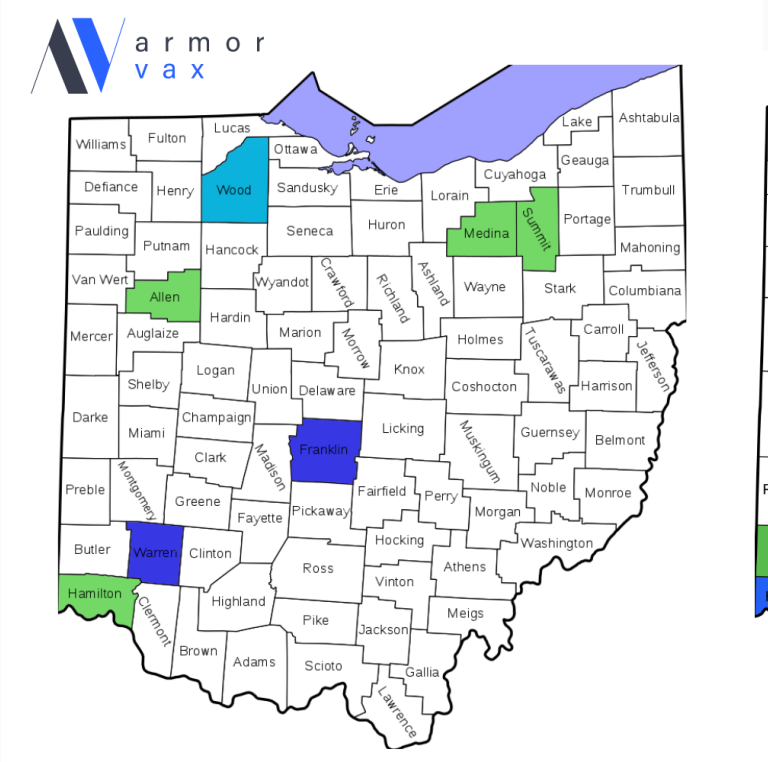
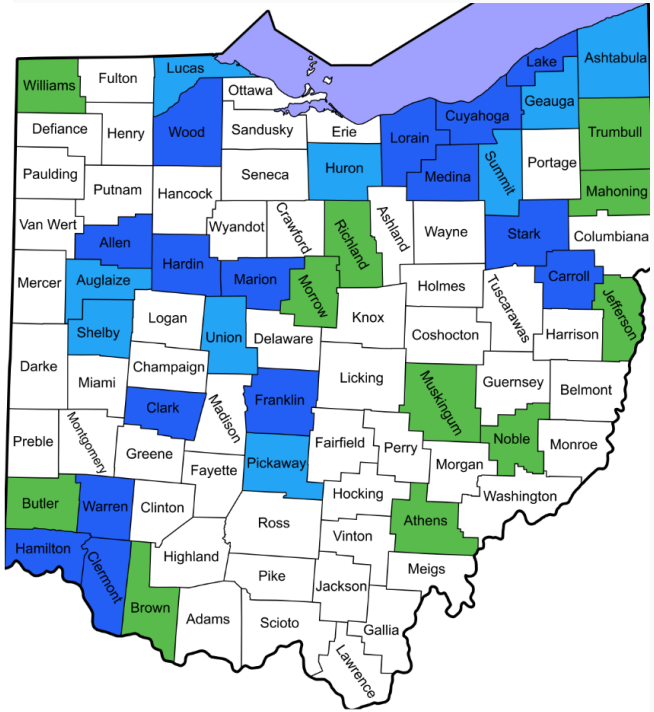
ArmorVax Demo Given



December 28, 2020



February 4, 2021

ArmorVax has partnered with Ohio's three largest counties; Franklin (Columbus), Cuyahoga (Cleveland), and Hamilton (Cincinnati) to make appointments available. **Nearly 5.3 million Ohioans live in an ArmorVax county, or 45% of the state's entire population!**

ARMORVAX:
IN THE NEWS

Health Care

'There needs to be patience': Here's what's new with Ohio's vaccine rollout

Hamilton County Health Commissioner Greg Kesterman

The health department is working with Mentor, Ohio-based ArmorVax, which offers a scheduling app that can also issue vaccine reminders. **Kesterman said the department is in the early phases of testing that platform.**

HAMILTON COUNTY HEALTH DEPARTMENT

WOOD COUNTY HEALTH DEPARTMENT

FEATURED TOP STORY

COVID vaccine will arrive this month

By Marie Thomas-Baird, Sentinel-Tribune Education Editor Dec 10, 2020

"An app from RB Sigma will be used to preregister people so no doses are wasted and requires no local data entry.The 50 cents per administered dose will be a bargain, as "we can't hire someone to do it that fast," **Robison said about the subsequent data entry.**

Wood County Health Commissioner Ben Robison

RB MEDICAL SUPPLY A Division of RB Sigma | armorvax

“We used to do, you know, appointments or vaccines - the actual vaccine in the arm every, you know, 15 minutes. Well we’re scheduling them every five minutes. So the process, the efficiency of getting people through because that first part of all that paperwork is done right on the phone, on the app. They come, they check in, we scan and go.” **–Medina County Community Health Director Kristen Hildreth**

THE CURRENT STATE OF VACCINATIONS

ARRIVE

Patient

COVID-19 SCREENING

Patient
Staff Greeter

- Greeter provides forms and performs screening in the entryway or lobby
- Patient returns form when complete
- Paper form is saved for filing

CHECK-IN DOCUMENTATION

Patient(s)
Department Staff

- Department staff provides patient information for and consent form to patients while they wait
- Patients fill out forms and hold until their appointment

ADMINISTER VACCINE

Patient
Staff Nurse

- Patient provides forms to nurse
- Nurse administers vaccine and affixes vaccine labels to patient form
- Patient form is given to staff

WAIT

Patient

- Patient waits in observation room for 15 minutes for signs of any adverse reactions to the vaccine

DOCUMENTATION

Department Staff

- Department staff enters data from screening, patient information, consent and administration into an EMR and State Registry
- Paper files are then stored in a classic filing system

20 MINUTES | 15 MINUTES | 20 MINUTES PER PATIENT

76,838 HOURS OF VACCINATIONS WOULD COST APPROXIMATELY $691,542

ARMORVAX:
MOBILE APP EMAIL CONFIRMATION

John Smith,

This email will serve as confirmation of the **COVID-19 Vaccination** appointment for the following:

Name: **John Smith**
When: **January 7, 2021 at 09:00 AM**
Provider Organization: **County Health Department**
Where: **County Health Department, 120 W Goodale St., Columbus, OH 43215**

After the vaccine is administered, you are required to **wait 15 minutes** to observe any adverse reactions.

The COVID-19 Vaccine is approved to be administered under Emergency Use Authorization (EUA). It is important that you follow the links below to open and review each EUA document. Depending on the vaccine availability and if this is your first or second dose, one of the following vaccines will be administered:

- **Moderna COVID-19 Vaccine** EUA Document Link
- **Pfizer-BioNTech COVID-19 Vaccine** EUA Document Link

If you have already received your first dose of the COVID-19 vaccine, please take the vaccine record with you.

IMPORTANT: The second dose of the COVID-19 vaccine must be from the same manufacturer as the first dose. If you do not have a record of your first vaccine, please inform the office/nurse when you arrive for your appointment.

Thank You,

ArmorVax
