## ArmorVax: The Future of Immunization

The ArmorVax mobile vaccine app offers convenience, speed, and accuracy for consumers and medical providers, while eliminating the hassle of getting vaccinated and keeping your immunization records at your fingertips.

### How It Works

## Search. Select. Schedule.

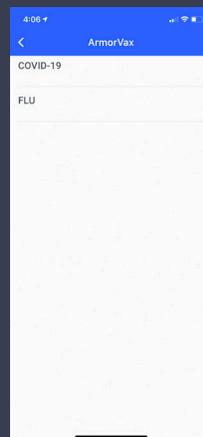

#### Create an Account

New to ArmorVax? Signing up is easy. Follow the prompts and create your account today.

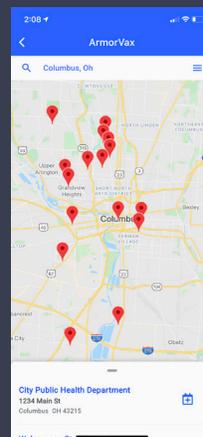

#### Find A Provider

Open the App and select *Find a Provider* to begin.

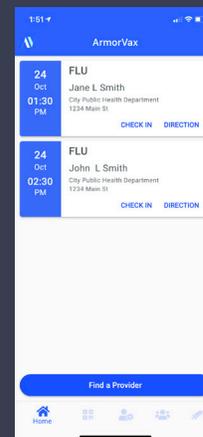

#### Select the Type of Vaccination

Select the specific vaccination you need to have administered, and then *Find a Provider*.

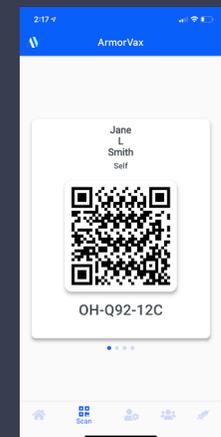

#### Search and Select a Provider

The map of available providers will auto-populate based on your location, allowing you to select a medical provider closest to you.

#### Schedule an Appointment

After choosing a provider, select the time that works best for you. Follow the prompts and upon completion, you will receive a confirmation message with appointment details.

#### Scan QR Code for Vaccination

Once you arrive at your selected location, open the ArmorVax app and show your QR Code to the provider for your requested vaccination.
