Key advantages of the Fridge-tag

- **Alert state**
  - Visible on the display with audible alarm

- **Easy to read out**
  - with ✓ and ✗

- **30 days**
  - History directly visible on the display

- **PDF**
  - Graph available via USB interface
From indicators and data loggers to complete monitoring systems

Indicators
Highest quality – easy to read out

Data loggers
Temperature monitoring

Software
Complete monitoring system
Berlinger services offer added value

- **Recycling**
  Tailor-made solution for used data loggers

- **Customized data logger**
  Logger with individual colors and logo on each logger

- **Sustainability**
  Berlinger strategy: use of even more recyclable materials to improve sustainability

- **Additional data logger integration**
  Integration of 3rd party devices in Berlinger SmartView
  (Requirement: data key of the logger)
Digitalized Temperature-Monitoring Solution
Berlinger offers a fully integrated temperature monitoring solution based on Berlinger’s Q-tag and Fridge-tag devices in combination with Berlinger SmartView platform with its different business logic modules, and an Application-Programming-Interface (API) to integrate with other systems.
Integration and digitalization pave the way for improved efficiency
easily and on highest quality standards

between your Software environment and SmartView

stop leaving temperature data management and assessment untransparent and paper driven

Advantages and Reliability of Berlinger SmartView

Manage KPI

Exchange information

Digitalization
Advantages and Reliability of Berlinger SmartView

- **24/7**
  - Fully data access worldwide to Berlinger’s cloud platform

- **Efficiency**
  - Increase speed and efficiency

- **Value-adding services**
  - Support for API integration, qualification and more

Temperature-monitoring devices
- Tailor-made control
- Flexibility, e.g. different label colors, logo printing

SmartView
- Cloud platform for data analysis
- Stability monitoring
- API -> ERP/IRT integration
- Cost reduction through digitalization

Berlinger’s milestones
- 2021 ONWARDS

Predictive and prescriptive analytics with AI
Combine ease of use and high power for maximum efficiency and visibility with the full suite of site, shipment, and remote monitoring.

Focus on what matters most, caring for your patients.
