Monitor your Covid 19 vaccines with ease and reliability!

Key advantages of the Fridge-tag

Alert state

visible on the display with audible alarm

Easy to read out

with \and \and

PDF

Graph available via USB interface

30 days

History directly visible on the display

From indicators and data loggers to complete monitoring systems

Highest quality – easy to read out

Data loggers

Temperature monitoring

Software

Complete monitoring system

Berlinger services offer added value

Tailor-made solution for used data loggers

Berlinger strategy: use of even more recyclable materials to improve sustainability

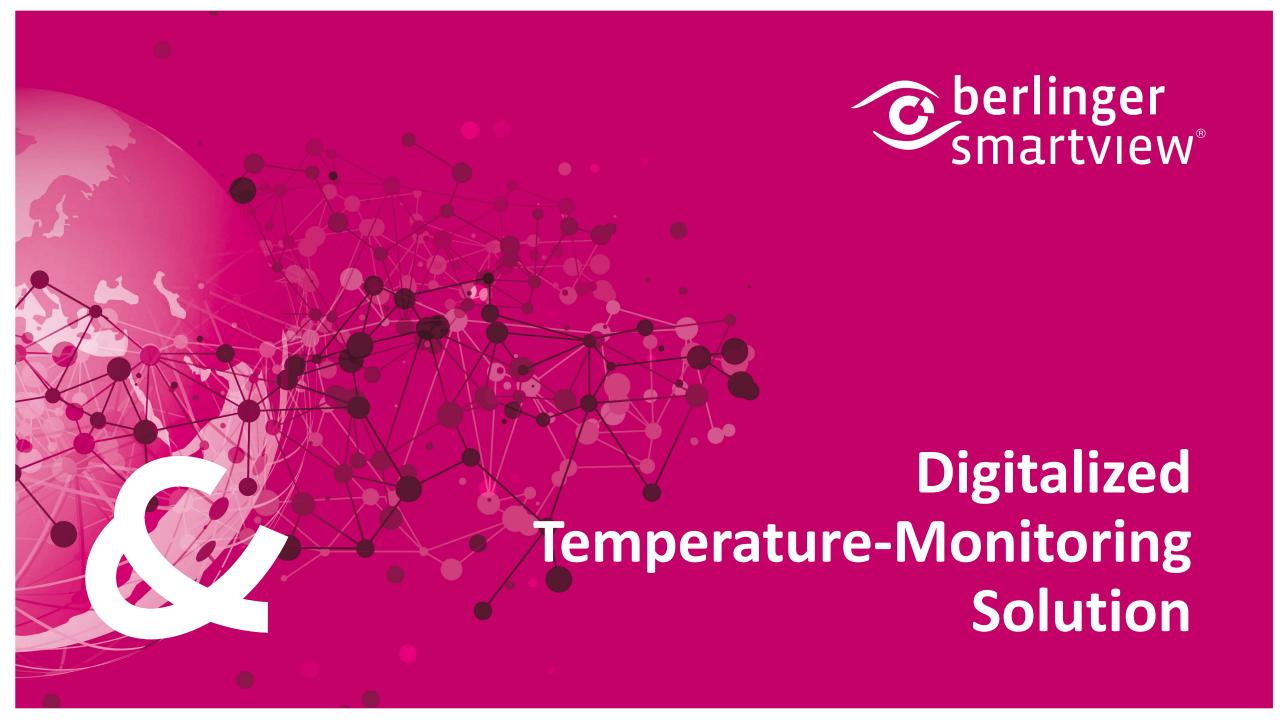

Logger with individual colors and logo on each logger

Additional data logger integration

Integration of 3rd party devices in Berlinger SmartView

(Requirement: data key of the logger)

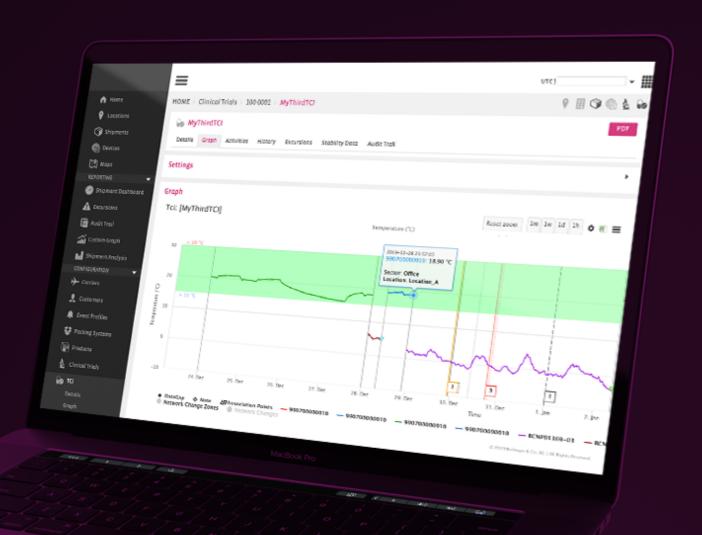

Digitalized Temperature-Monitoring Solution

Berlinger offers a fully integrated temperature monitoring solution based on Berlinger's Q-tag and Fridge-tag devices in combination with Berlinger SmartView platform with its different business logic modules, and an Application-Programming-Interface (API) to integrate with other systems.

Integration and digitalization pave the way for improved efficiency

Advantages and Reliability of Berlinger SmartView

easily and on highest quality standards

between your
Software
environment and
SmartView

stop leaving temperature data management and assessment untransparent and paper driven

Advantages and Reliability of Berlinger SmartView

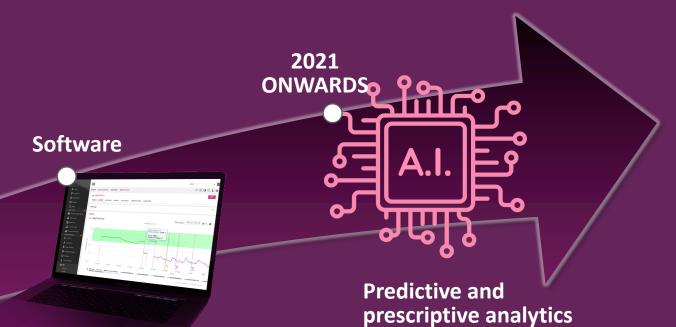

Fully data access worldwide to Berlinger's cloud platform

Increase speed and efficiency

Support for API integration, qualification and more

Berlinger's milestones

with Al

Temperature-monitoring devices

- Tailor-made control
- Flexibility, e.g. different label colors, logo printing

SmartView

- Cloud platform for data analysis
- Stability monitoring
- API -> ERP/IRT integration
- Cost reduction through digitalization

Combine ease of use and high power for maximum efficiency and visibility with the full suite of site, shipment, and remote monitoring

Focus on what matters most, caring for your patients
