Per Capita Assessment Methodology

National Vaccine Plan

The current universal purchase states have adopted laws and policies in line with the National Vaccine Plan (2010) that supports:

- Reduced out-of-pocket costs for families,
- A stable supply of vaccines,
- Access to and better use of recommended vaccines in the United States.

Benefits of Universal Vaccine Purchase

one

Increased vaccine access

two

Expanded physician participation

three

Stabilized vaccine funding source

four

Increased efficiency of vaccine ordering, tracking, delivery, and monitoring

five

Lowered healthcare costs

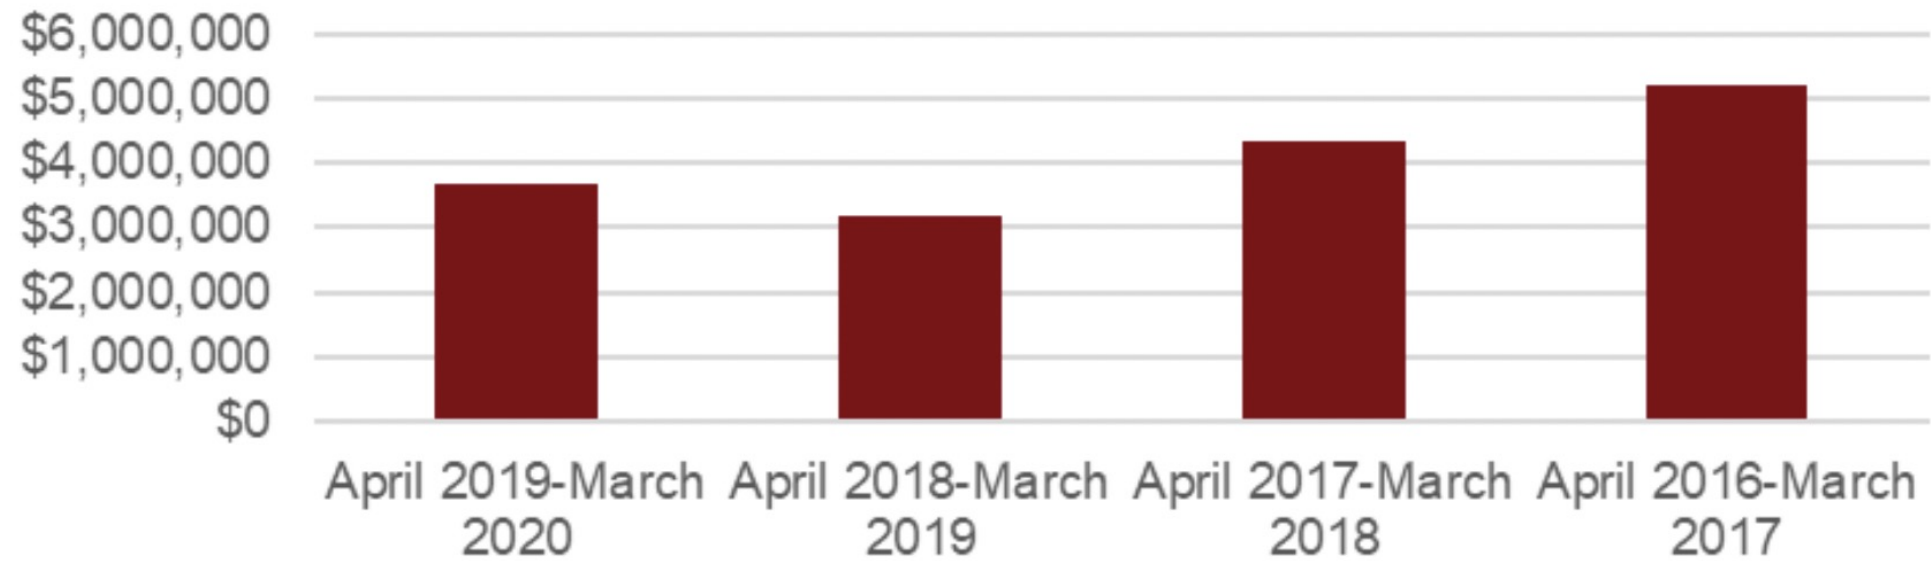

six

Facilitated by multi-disciplinary board to help aid:

- Process improvement
- New vaccine review and implementation
- Financial transparency
- Overall efficient operation
- Payer buy-in

MUCIP Savings Based on a Survey of Maine Payers

Are universal vaccine policies worth the effort? YES!

- What are the benefits?
 - Stabilize vaccine funding source
 - Increased efficiency of vaccine ordering, tracking, delivery and monitoring
 - Lower healthcare costs
 - Reduce missed opportunities
 - Increased access
 - Rural/Urban
 - Systems/Independents
 - Fully Insured/'Underinsured'
- Who benefits?
 - Family
 - Providers
 - Health System
 - Community

Create a Universal Vaccine Purchase Program

Gather the support of stakeholders:

- Payers
- Providers
- Departments of Health and Insurance

Enact state legislation authorizing assessments on payers and insurers.

Assemble a vaccine board to govern and provide transparency in fund collection and assessment setting.

Engage an administrator to implement and oversee all aspects.

Our Clients

KidsVax® (KV) administers the funds that pay for childhood and adult vaccines in Maine, Vermont, Rhode Island, and Alaska on behalf of the following state-mandated nonprofit organizations.

Why now?

- Legislators are aware of vaccine impact (COVID-19)
- Payers see cost savings
- Continual rise in vaccine cost
- TRICARE - federal insurance is now a part of the payer mix
- Potential administrative fee to state programs

Our Vision

There are no financial barriers to being vaccinated in the United States

Our Mission

Increase vaccination access through the advancement of universal vaccine policies.
