LogTag Recorders

Agenda

- LogTag Recorders Overview

- LogTag Recorders' Immunization Products
  - Vaccine For Children (VFC)
  - Covid-19 Vaccine

- LogTag Online

- Typical Retail Pricing

- Technical Resources available for AIM Providers

- Questions and discussion

LogTag Recorders

- ## LogTag North America
  - A sales office in North America, and Production & Logistics are also handled by LogTag North America
  - LogTag products are sold through distributors and resellers, such as Control Solutions, Thermco, Global Sensors, MicroDAQ, and others.

- ## New Zealand
  - LogTag support, administration, sales & marketing, research, and development center are in Auckland, New Zealand.
  - Our shipments are from Hong Kong

All CDC VFC data loggers are available for low-temperature for COVID-19 vaccines

Temperature range -40°C to +99°C (-40°F to +210°F)

Temperature range -90°C to +40°C (-130°F to +104°F)

CDC / VFC Kit – TRED30-16R

- Up to 15,900 recordings

- Easy to read display

  - 30-day summary

- Built-in audible alarm

Includes: TRED30-16R, ST100K-15 External Sensor & Glycol Buffer,
NIST traceable Calibration Certificate
Additional Accessories: Wall Mount & Interface Cradle

CDC / VFC Kit – UTRED30-WiFi

- New large easy-to-read display
- Reset Min/Max temperature reading at any time
- Audible alarm & red LED signals a temperature alarm
- Real-time data automatically uploaded via WiFi to the LogTag Online cloud

Includes: UTRED-16, ST100K-15 External Sensor & Glycol Buffer, NIST traceable Calibration Certificate
Additional Accessories: Wall Mount & Interface Cradle

CDC / VFC Kit – UTRED30-16

- New large easy-to-read display
- Reset Min/Max temperature reading at any time
- Audible alarm & red LED signals a temperature alarm
- View alarm status for up to 30 days at a glance

CDC / VFC Kit – UTRED-16

- Low-cost solution
- Up to 16,000 recordings
- Easy to read display
- Can be connected to any computer with a USB port
- No interface cradle required.

Includes: UTRED-16, ST100K-15 External Sensor & Glycol Buffer, NIST traceable Calibration Certificate
Additional Accessories: Wall Mount & Interface Cradle

All vaccine data loggers are available for VFC and low-temperature for COVID-19 vaccines

Vaccine Kit Temperature range -40°C to +99°C (-40°F to +210°F)

UTRED-16	$72
TRED30-16	$147
UTRED30-16	$190
UTRED30-WIFI	$249

Low Temperature Vaccine Kit (Temperature range -90°C to +40°C (-130°F to +104°F)**)**

UTREL-16	$72
TREL30-16	$147
UTREL30-16	$190
UTREL30-WIFI	$249

Vaccine Kits include logger, external probe, glycol buffer, wall-mount bracket, and a Calibration Certificate

LTI-HID - Standard Interface Cradle (Docking Station)

- New and improved design to replace the current LTI-USB Interface Cradle

- Can be used with TRED30-16R and any 3 silver contact pin loggers

- Uses drivers from Windows OS so no need to install proprietary drivers

- Must be connected to a computer

LTI-WiFi interface cradle

LogTag®Online

- Compatible with TRED30-16R and standard LogTag loggers with 3 silver contact pins

- Data is uploaded each time the logger is plugged in

- Downloaded data fully encrypted and uploaded via WiFi connection to LogTag Online cloud

- Uploaded data immediately available for viewing online

LTI-WM-WiFi interface cradle

LogTag®Online

- Real-time continuous data upload to LogTag Online Cloud

- Automatic notification of alarms via email and SMS text alerts

- Easily set up to work with your WiFi network

- Compatible with TRED30-16R and other LogTag models with 3 silver contact pins

- Ease of use – no special training or interaction required

Wi-Fi Products and **LogTag**®**Online**

- Automatic notification of alarms by email and text, 24/7

- Ease of use, simplifying data collection and saving you time

- Guaranteed data collection and regulatory compliance

What is LogTag Online?

- LogTag Online (LTO) is a Cloud-based online environmental management system providing alarm notifications, compliance, record storage and reporting functions.

- LTO allows its users to download data from LogTag dataloggers, view the data in the cloud, and allows the sharing and securing of the data using a permissions system.

Who sees LogTag Online?

- **Owner:** Responsible for full editing and assigning rights in the team and can manage ALL team settings including billing
- **Administrator:** Limited capability to edit team settings, has some assigning rights within the team.
- **Member:** Able to view Team activity, very limited or no authority to Manage Team settings
- **View Only:** Viewing of data and records only. No modification or editing is permitted. 'View Only' mode status in yellow is displayed in the top menu banner next to LTO logo
