

# POP Provider Survey Results

## Highlights

In Summer 2023, the Power of Providers (POP) Initiative administered a survey among providers who were currently signed up for POP. The purpose of the survey was to understand providers' experiences as members of POP and identify potential areas for improvement and growth as a program. A total of 286 providers completed the survey. This report includes highlights from the survey findings. More in-depth findings will be included in an evaluation report due later this year.

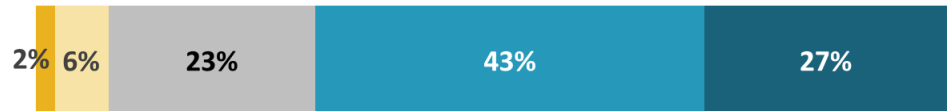

**71%** of providers agreed or strongly agreed that the information and resources offered through POP have **increased their confidence in encouraging COVID-19 vaccination with their patients.**

## The information and resources offered through POP have...

... increased my confidence in encouraging COVID-19 vaccination with my patients

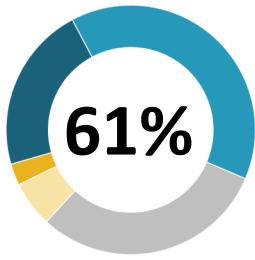

... benefited me in my role as a health care professional

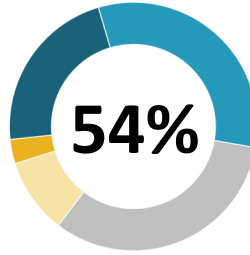

Strongly Disagree    Disagree    Neither Agree nor Disagree    Agree    Strongly Agree

# Connection

POP helps providers feel more connected to DOH and to other providers.

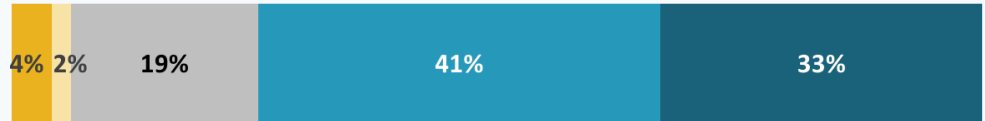

of providers strongly agreed or agreed that membership in POP has **strengthened their connection to Washington State DOH**

of providers strongly agreed or agreed that they **feel connected to a larger network of providers** because of their POP membership

# Communication

I feel comfortable reaching out to the POP team to ask for assistance or resources

I know how to contact the POP team if I need resources, information, etc. from POP

The POP team has been responsive to my requests

Strongly Disagree    Disagree    Neither Agree nor Disagree    Agree    Strongly Agree

**59%** of providers have implemented the **SAVE** intervention for **COVID-19 vaccines more often with patients** because of their membership in POP.

*POP "is a perfect example of working together to reach out to our communities"*
