AIM Legislative Roundup: March 11, 2024

With many states in the heat of legislative session and 364 pending vaccine-related bills, AIM is relaunching our weekly Legislative Roundup. This resource is designed to provide a snapshot of current vaccine policy activity alongside relevant AIM policy resources.

[Connecting the Dots: Legislative Sessions](#) is a compilation of resources to equip AIM members with information to respond to and prepare for legislative inquiries. Visit our [Policy Toolkit](#) to view all our legislative resources, and please reach out to AIM Chief Policy Officer Brent Ewig at bewig@immunizationmanagers.org if you need any assistance with proposed bills in your jurisdiction.

Vaccine Legislation that has passed one or both chambers: February 1 -March 7 2024

- **WV HB 5105**- Would add religious exemptions for school required vaccines and remove vaccine requirements for students in virtual school.
- **ID H 438 & IA SF 2196**- Would require all communications about vaccine requirements to include information about exemptions.
- **ID H 397**- Would change IIS inclusion from opt-out to opt-in.
- **WI AB 610**- Would add medical, religious, and personal exemptions to university vaccine requirements if the school receives public funding.
- **UT H 405**- Would add medical, religious, and personal exemptions to medical school vaccine requirements.
- **GA HB 576 & WI SB 933**- Would require that vaccination status cannot be used to make decisions surrounding organ donation receipt.
- **AZ SB 1407**- Would state employer-required influenza vaccine, or any vaccine under FDA EUA, be subject to employee religious exemptions.
- **TN SB 2359**- Would establish that one's vaccination status cannot be a requirement for adopting or fostering a child.
- **ID H 597**- Would allow school children of majority age to sign their own vaccine exemption form.
- **AZ HB 2442**- Would forbid any vaccine under FDA EUA from ever being required for school attendance.
- **MD SB 210**- Would extend paramedic authority to administer influenza and COVID-19 vaccines until 2030.
- **KY HB 274 and HI HB 2553**- Would permit pharmacists to vaccinate age 3 years and older.
- **WA SB 5982** -Would simplify the definition of vaccine as any "immunization" approved by FDA and recommended by CDC.
- **WV HB 5361**-Would require hospitals to offer no-cost flu vaccines to all patients 50 years and older prior to discharge during flu season.

Please Note: AIM is striving to monitor fast-moving state legislative developments. The information included in this summary may not be comprehensive and is subject to change.
