IIS Supplemental Funding Initiative

HOUSTON HEALTH DEPARTMENT

BACKGROUND

2022-2025 IIS Supplemental Funding

HHD received IIS Supplemental Funding to strengthen IIS data exchange performance and improve immunization reporting quality among enrolled providers.

FINDINGS

34%

of providers had client acceptance rates below 90% (CARE Report).

Many providers were unfamiliar with how to access or interpret IIS error reports.

IMPACT

- **Timeliness.**
- **Data completeness.**
- **Confidence in IIS data use.**

Client Acceptance Rate Evaluation (CARE) Report

HOUSTON HEALTH DEPARTMENT

CARE REPORT

PURPOSE

Measures client acceptance rates submitted from provider EMRs into ImmTrac2.

THRESHOLD

< 90% Client Acceptance Rate = Outreach Candidate

1. MONTIOR REPORTING TRENDS

- Tracked client acceptance rates over time.
- Evaluated reporting consistency.

2. IDENTIFY PROVIDERS NEEDING SUPPORT

- Flagged providers below the 90% threshold.
- Prioritized outreach efforts.

3. PROVIDE TECHNICAL ASSISTANCE

- Delivered targeted provider education.
- Supported workflow improvements.

Texas Immunization Provider Summary (TIPS) Report

HOUSTON HEALTH DEPARTMENT

TIPS REPORT

PURPOSE

The TIPS report was used to measure immunization acceptance rates and reporting timeliness.

THRESHOLD

< 90% Immunization Acceptance Rate = Outreach Candidate

1. IDENTIFIED PROVIDERS WITH IMMUNIZATION ACCEPTANCE RATES BELOW 90%

Flagged providers not meeting the 90% threshold for targeted outreach.

< 90%

2. MONITORED REJECTED VACCINE SUBMISSIONS

Reviewed rejection reason to identify common data quality issues.

3. EVAULATED REPORTING LATENCY TRENDS

Analyzed time between vaccination and reporting to ImmTrac2.

4. IDENTIFIED POTENTIAL INTERFACE & WORKFLOW ISSUES

Used insights to address system and workflow barriers impacting timely and accurate reporting.

Outreach Goals

HOUSTON HEALTH DEPARTMENT

Improve Acceptance Rates

Improve client and immunization acceptance rates among providers participating in data exchange.

Increase Provider Understanding

Increase provider understanding of IIS data exchange processes.

Strengthen Engagement

Strengthen provider engagement with IIS reporting and error resolution.

Approach & Timeline

HOUSTON HEALTH DEPARTMENT

August 2023

1

Phase 1: Client Acceptance (CARE Report)

Outreach initiated targeting providers with **client** acceptance rates below 90%

(*Client = patients)*

May 2024

2

Phase 2: Immunization Acceptance (TIPS Report)

Expanded to include providers with **immunization** acceptance rates below 90%

(Immunization = vaccine doses)

Expansion & Continued Impact

HOUSTON HEALTH DEPARTMENT

Expansion & Continued Impact

Transitioning to Targeted TVFC/ASN Outreach

HOUSTON HEALTH DEPARTMENT

PROGRAM CONTINUATION

IIS quality improvement efforts resumed in **January 2026** through an additional funding source, the Public Health Infrastructure Grant (PHIG).

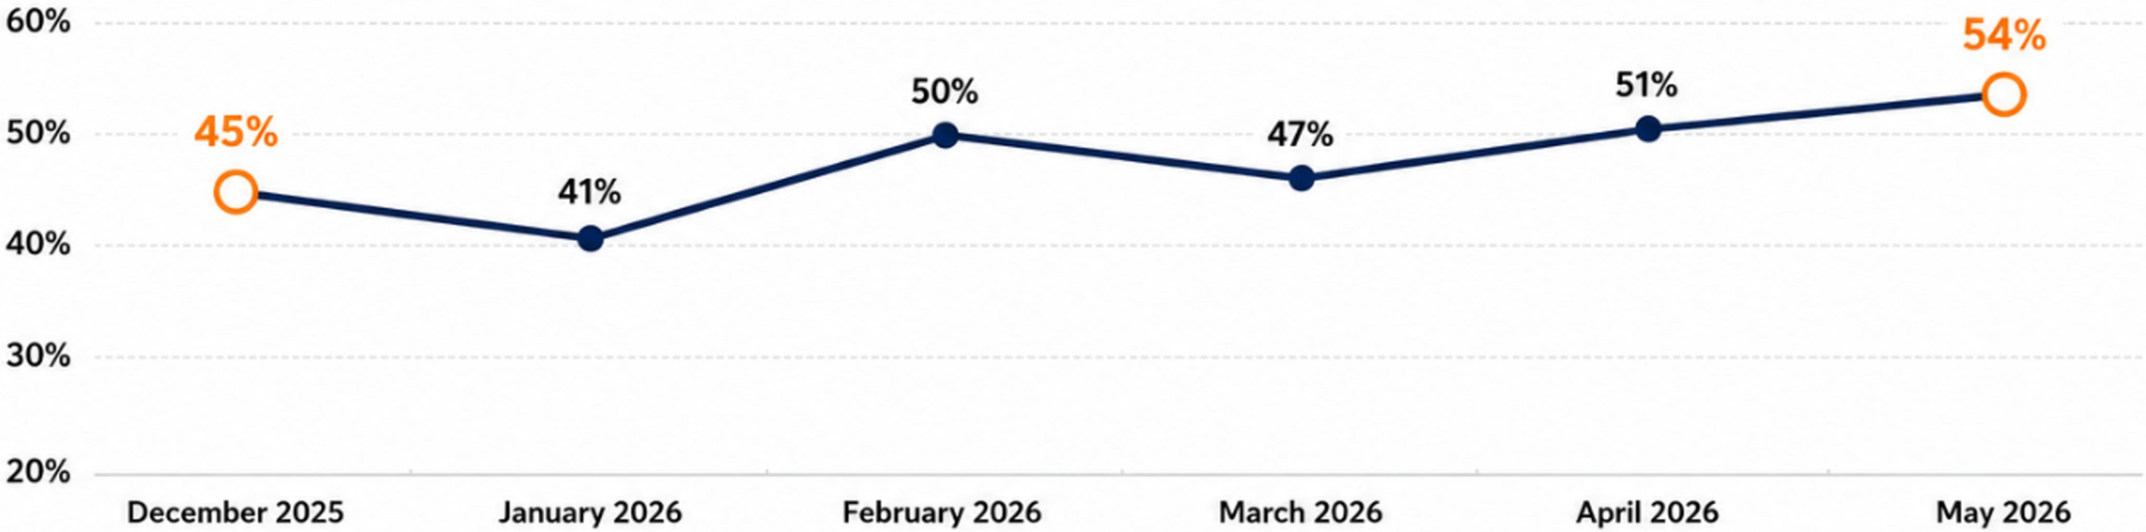

PROGRAM CONTINUATION

Outreach efforts transitioned from all IIS-enrolled providers to a focused approach targeting **TVFC/ASN-enrolled providers**.
