# Immunization Coverage Rate Improvement Pilot Project Overview

HOUSTON HEALTH DEPARTMENT

The Immunization Coverage Rate Improvement Pilot Project is a data-driven HHD initiative led by the IPOS Team and IQIP Consultants to improve immunization coverage rates among 2-year-olds served by TVFC providers.

## PROVIDER SELECTION

### PROVIDER ELIGIBILITY CRITERIA

- Served at least 200 two-year-old clients.
- Had immunization coverage rates below 70%.

### PROVIDER SELECTION PROCESS

- Eligible providers were identified using the IQIP Report.
- Providers were randomly selected and invited to participate in the initiative.

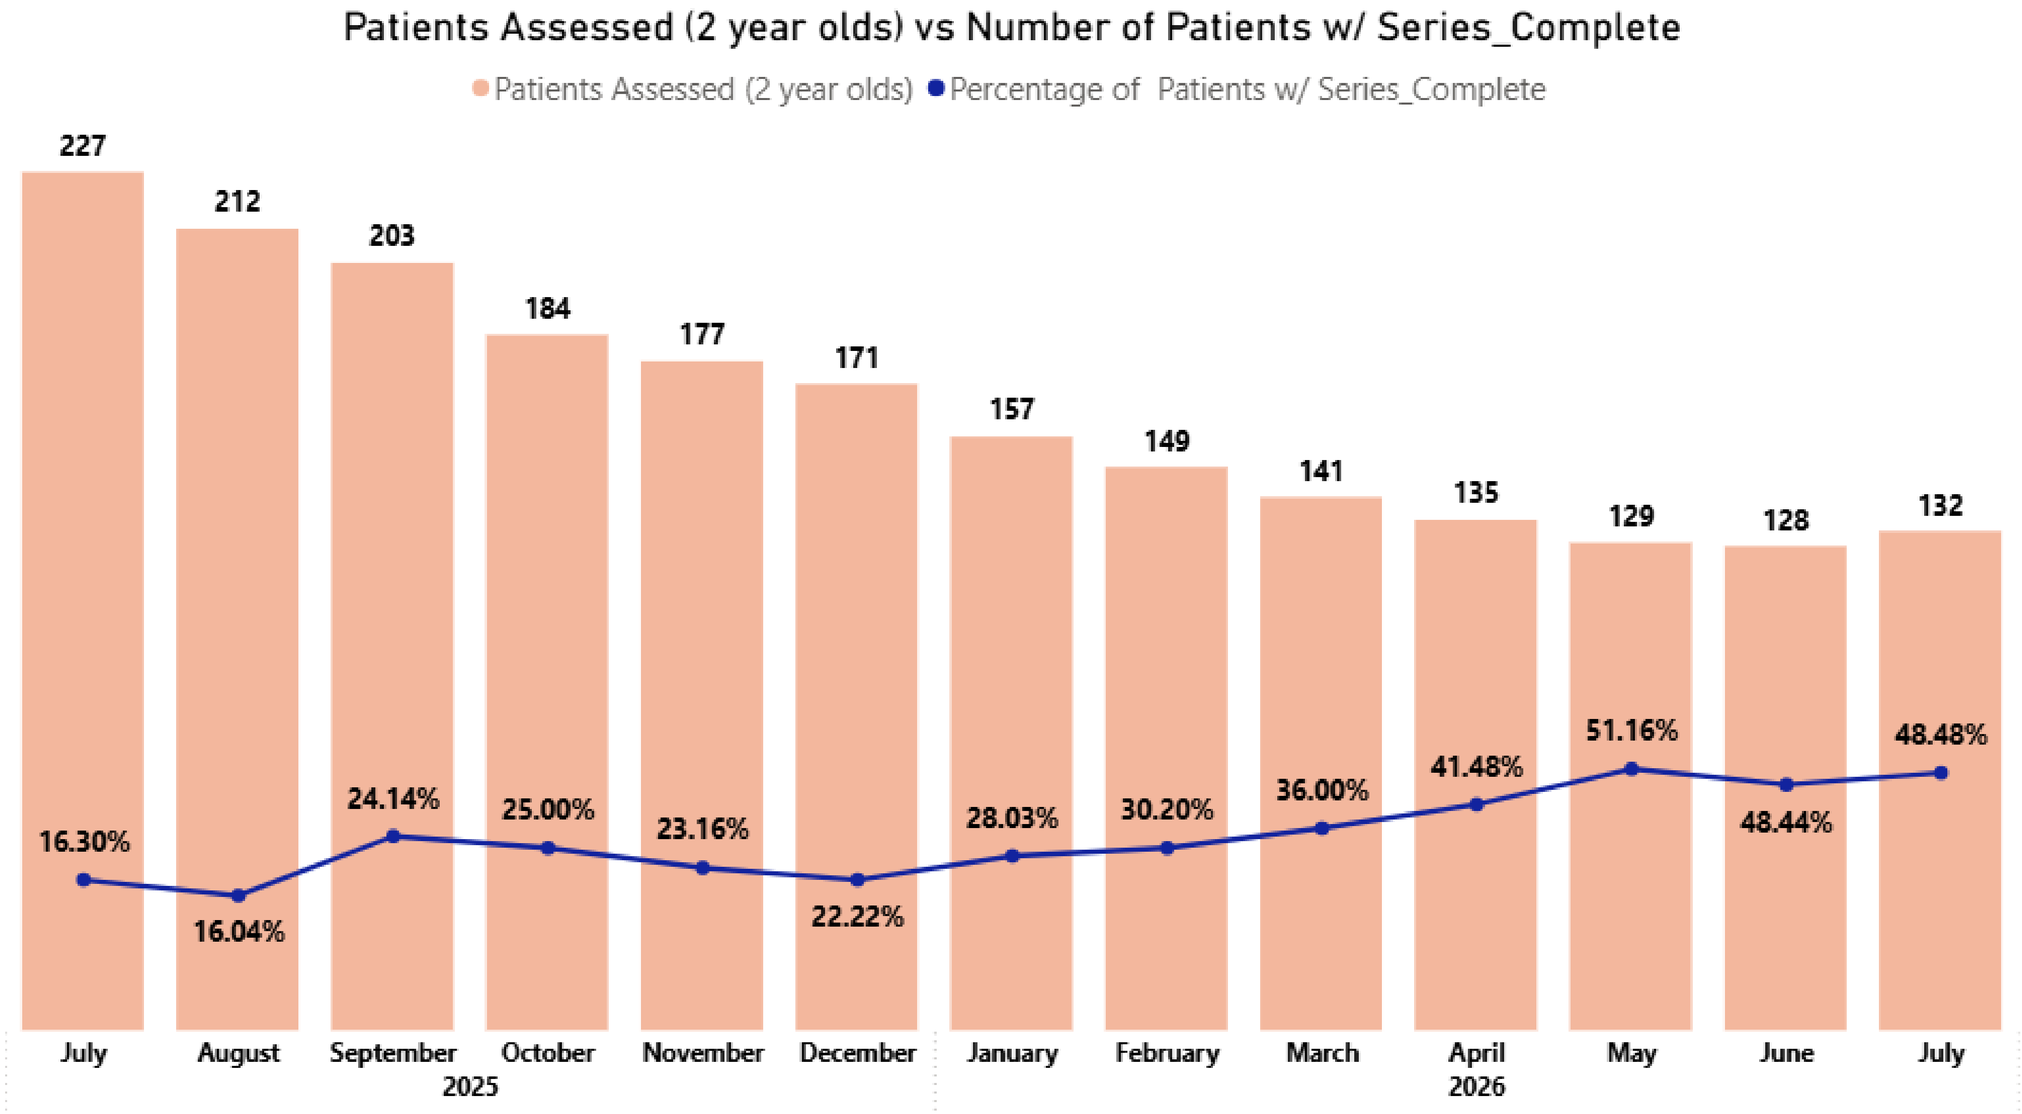

## FOCUS AREAS

- Data accuracy
- Reporting timeliness
- Bidirectional data exchange
- Coverage rate improvement
